Taiwanese Journal of Sociology

Disclosure Statement on the Use of Generative AI Tools (Sample)

Generative AI tools were used during the _____ stage(s) of the research process (e.g., manuscript preparation or data collection). The tool(s) used were _____ (name and version), and were used for _____ (e.g., preparing figures and tables or translating text). The purpose of using these tools was _____.

AI tools were not used to generate research data, fabricate references, or substitute for the authors' scholarly judgment. All AI-assisted content was individually reviewed and verified by the authors, and revised as necessary. The authors take full responsibility for the research data, citations, analysis, arguments, and conclusions presented in this manuscript. No confidential information, personal data, or other information that should not be disclosed to third parties was uploaded to generative AI services.
